

STATEMENT OF PURPOSE

INTRODUCTION AND FAMILY BACKGROUND

I am grateful to introduce myself as Mrs. Parimita Dhakal, born on 16th October 1995. I am a permanent resident of Surkhet, Nepal. I am an enthusiastic, competent, and farsighted student who is planning to study Master of Professional Accounting (Professional Practice) at Charles Darwin University. My family has been very supportive and has dedicated themselves to stand by my side and I feel fortunate enough to receive support for my decision to study abroad.

I have family members which include me, my grandfather, father, mother, sister and brother. My father is program director of Back to life (German INGO). My mother works as a homemaker and is a house owner. I have my younger sister who is currently studying her bachelor's degree in Nepal. My younger brother also studies in class 4. As I am married to Mr. Subash Timsina on 30-11-2020, we live together including me, my husband and my mother in law. My husband Mr. Subash Timsina works at NIC ASIA Bank Limited. My mother in law works at Sarbeshwor Sahakari Cooperative Organization.

ACADEMIC BACKGROUND

- 2011 School Leaving Certificate – 81.63%
- 2013 Higher Secondary Education Board Nepal – 66.70% with major Accounts
- 2017 Bachelors In Development Finance from Kathmandu University – CGPA 2.83
- 2020 Master In Business Administration from Lincoln University College- CGPA 3.76

WORK EXPERIENCE

- **NABIL BANK LTD (Joining Date Jan 28,2019- till date)**

As currently I am working at Nabil Bank Limited I am passionate to gain theoretical and practical knowledge about Accounting and the Financial Sector. I aspire to learn more and more about trending and new technologies emerging in these industries and seek a further career in this field. I genuinely believe that I firmly belong to this field because from an early age, I wanted to become a qualified personal bank manager in one of the reputed banks in Nepal, or else I wanted to open my own financial company.

- **HR Officer at Apex Group Nepal (27 October 2017 – 2nd December 2018)**

Simultaneously, I started preparing for English proficiency test (PTE). The details are as below- [PTE score sheet enclosed].

Test Date	Overall score	Listening	Reading	Writing	Speaking
22 Feb, 2022	63	61	65	67	59

REASON FOR NOT CHOOSING NEPAL FOR MY FURTHER STUDIES

As per my resolution, I set my mind to attain an international degree after accomplishing my higher degree in my home country Nepal. For my higher studies, I have always wanted to travel and explore overseas and study in an international institution to explore realistic teaching methods. My choice of Australia over Nepal is guided by several reasons. After the completion of my Bachelor in Development Finance in 2017, I wanted to study for a foreign qualification but also wanted to pursue a banking career in Nepal. Hence, I studied an MBA program at Lincoln International College in Nepal which is affiliated with Lincoln University College in Malaysia. Although the education standards were the same as studying on the main campus, the Nepal campus lacked international industry exposure and international teaching facilities, and I felt I also missed the lifetime opportunity of making connections with international students studying the same program. Hence this time, I am applying to study in Australia so that I could get international placements and exposure, internationally recognized faculties, and develop friendships with professionals around the world who would travel to Australia to study the same course. As Australia is the most popular international students' hub, this opportunity can be best excelled in Australia.

I had been researching different aspects such as the different universities or colleges which are offering the course, the name of the course, the entrance exam I have to clear, the duration of the course, etc. I have provided the links for these universities for your reference.

<u>Name of the University/College</u>	<u>Name of the program</u>	<u>Duration</u>	<u>Fee Structure (NPR)</u>
Tribhuvan University (https://tribhuvan-university.edu.np/)	Master of BusinessAdministration	2 years	4,15,000/-
Pokhara University https://pu.edu.np/academics/faculties/fst/programs/	MBA Global Business	2 Years	7,50,000/-
Purbanchal University https://purbanchaluniversity.edu.np/	Master of BusinessAdministration	2 years	3,50,000/-

It is very obvious that graduates with a degree from Nepal have lower empowerment opportunities and are not globally recognized compared to their peers with a degree from countries with an advanced education system such as the USA, UK, Australia, etc. In Nepal curriculum is primitive and focuses on a theoretical concept despite its practical implications and we are not able to cope with innovations. I decided to pursue my Master of Professional Accounting (professional practice) from CDU, Australia as I found no specialty to build up my career from the university degrees in Nepal. I did not find any of them satisfied with the institutions they enrolled in. Political interference is also hampering the quality of education in Nepal. More importantly, they lack a practical education system which is the primary reason for me to try abroad. Education providers in Nepal at the university level also lack equipped infrastructures, job opportunities, and professional expertise output to produce graduate outcomes with international exposure at the workplace. Thus, I am planning to get another master's degree from Australia with major accounting, which is known as the best destination to study for international students across the globe.

REASON FOR NOT CHOOSING USA, CANADA, UK AND OTHER EUROPEAN COUNTRIES FOR MY HIGHER STUDIES

Before deciding to study in Australia, I have also researched other countries which are highly recognized for higher studies in my country. I found out that the most popular destinations apart from Australia are USA, the UK, Canada, Australia, New Zealand and European nations like Germany, Norway, Finland and Poland through

<https://www.britishcouncil.in/study-uk>, <https://www.homeaffairs.gov.au/>, <https://www.usa.gov/study-in-us>

- **Reason for not choosing USA for my higher studies:** I have explored my possibilities in the USA. I attended various educational fairs and did some research about few universities in the USA such as: -

<u>UNIVERSITIES</u>	<u>PROGRAMS</u>	<u>TUTION FEES PER</u>
		<u>ANNUM IN USD</u>
University of Washington	Master of Professional Accountancy	81,378/-
<u>New York University (NYU)</u>	Master in Professional Accounting	56,140/-
<u>University of Michigan</u>	Master of Accounting	55,328/

The USA has the widest choice of Universities and Programs available in the world and it is considered an ideal destination for students who want to study Master of Accounting as there are a number of top universities which

offer degrees in Accounting and Finance but the cost of education in the U.S.A is very high, and the dollar conversion rate is also very high in comparison to NPR (**USD 1 = NPR 124/- approx.**). Also, most of the premium institutions ask for entrance exams like GMAT/GRE besides the IELTS/PTE exam which is very time-consuming as it takes around 6 – 7 months of preparation. There were other few factors besides the high cost of living and fee structure like security. We have in Nepal seen and heard numerous crime stories that happen in the USA and honestly speaking, it leaves a scar on the mind about one's security. I would rather be in a safe country than have to look behind my shoulder all the time. So, due to all these reasons, I opted out of the USA for my further studies.

- **Reason for not choosing Canada for my higher studies:** Few universities which I have researched in Canada:-

<u>UNIVERSITY/INSTITUTE</u>	<u>PROGRAMS</u>	<u>TUTION FEES PER ANNUM</u>
University of Alberta	Master of Accounting	CAD 25,200/-
Queen's University	Master of Finance	CAD 71,595 /-
University of Toronto	Master of Accounting and Finance	CAD 39,570 /-

During my research for universities in Canada, I found that the universities offer more diploma or certificate courses, which are shorter in duration, and I am not looking for any short-term program. I want to complete my master's degree full-fledged course where I get to learn every subject in detail. Furthermore, Canada is a very cold country. Sometimes, it gets tough for the students to attend the classes because of heavy snowfall. Personally, I do not like winters and hence Canada as a country did not appeal too much to me whereas climatic conditions in Australia are largely similar to that in my country. Apart from that, the currency conversion rate is CAD 1 = NPR 99.35/- whereas AUD 1 = NPR 90.8/-.

Reason for not choosing UK for my higher studies: The UK has also carried the value for world-class education and has globally ranked universities. I had undergone research for different universities which I have listed below:-

<u>UNIVERSITIES</u>	<u>PROGRAMS</u>	<u>TUITION FEE PER ANNUM</u>
London School of Economics	MSc Accounting and Finance.	GBP- 29,760/-
City University of London	MSc in International Accounting and Finance	GBP- 29,500/-
Lancaster University	MSc Accounting and Financial Management	GBP- 23,000/-

During my research for universities in the UK, I found that the living expenditure and transportation are also very high as one of my colleagues who is studying in the UK told me that the government generally doesn't subsidize the cost of travel in the UK and for this reason transport is expensive in the UK. Within London, a journey costs a flat rate of £1.50 per hour. However, the price of taking a train in the UK is 5 times more expensive than in any other nation. Furthermore, the UK is the topmost destination for higher studies but again due to many reasons I have not opted to study in the UK out of which the major reason is frequent amendments in immigration policies and rules of the UK which makes the system very unstable, and it causes difficulties for international students. Another reason is the very cold and harsh climate which will make it difficult for me to survive there. UK currency rate is very higher which will surely make the living expenses and tuition fees in the UK more expensive as **GBP 1 = NPR 156.42/-**

Reason for not choosing European Countries for my higher studies: The European countries like Sweden, Norway, Italy, and Germany are good countries which offer quality education with an affordable fee structure but the main problem to study in these countries is the language barrier. At least 1 year is the minimum need to grasp basics of the language which makes difficult to converse during my stay in Europe.

Considering these factors, I have chosen Australia to continue my higher education as I prefer to learn in multicultural environment that is found in Australia since the students come from more than hundred countries around the world. This means there is good system of education and effective learning environment.

REASON FOR CHOOSING AUSTRALIA FOR MY STUDY DESTINATION

After thorough research on overseas countries and consulting with my friends and my cousins who lives in Australia, and who have already experienced the education system of Australia, I came to a decision that Australia is a country that will fulfill all my needs related to my education and future career plan.

1. The Australian education system is very logical and emphasizes practicality so that students can develop their intellect. Courses that are being offered by Australian Universities are of a wide variety. These courses are arranged according to the requirements of the market. These courses make the student job ready by providing those skills and knowledge which is required by the employers of various Multinational Companies.
2. The language that is being used in the Australian education system is English and I have a good understanding of this language. I will not face any difficulty while understanding my Lecturers and Professors.
3. The climatic conditions of Australia are very much similar to Nepal so I will not face any difficulties while I will be in Australia.
4. Teaching methodology of Australia is of high quality as a variety of teaching methods are used like: Teacher-directed learning Group projects Student research and presentations etc.
5. Scholarships are provided to the students which can help them to achieve their goals in life. Each year the Australian Government provides approx. \$200 million dollars in scholarships for international students.
6. Post-study work visa of 3 years is also a great advantage for the international students as they can get work experience in their field at the international level and can use it wherever they start their job in the future.
7. Also, Australia provides the part-time work benefit of 40 hours per fortnight which is a great opportunity provided by the Australian government to all international students to cover their expenses while residing in Australia.
8. To maintain the quality of education in Australia, the Australian Qualification Framework was established in 1995, since that year, this body ensures the standard of the teaching system that serves the needs of students. If a student is studying in College and University that is affiliated with AQF (Australian Qualification Framework) this means that the institute is genuine. The education system of Australia is accredited and trustworthy.
9. Education system of Australia has won many awards and recognition, because of which many international students get inclined toward Australian Universities. Moreover, All the education providing institutions in Australia are registered with the CRICOS (Commonwealth Register of Institutions & Courses for Overseas Students) & ESOS-Act (Education Services for Overseas Students) as well as the TPS (Tuition Protection Services) code governed by the Australian Department of Education & Training, so there is no second doubt raised on the authenticity of the education provider. The Tuition Protection Service (TPS) ensures the safety of students' tuition fees. The degrees, and qualifications that are awarded to students are accredited, acclaimed, and valued across the globe, this is the reason why in the current market, Australia has consistently gained an edge over other countries. Apart from study, Australia is a country worth visiting:

- There are various tourist attraction places such as beaches, nature parks, art galleries, museums which make Australia more vibrant and livelier place.
- Low crime rate and climate conditions similar to Nepal weather make me feasible to live healthy in this country.
- The Overseas Health Cover is mandatory to apply in any institute of Australia which is very helpful for international students; unlike other country such as Canada. Because of these above said reasons I am choosing Australia for my higher education.

Above mentioned advantage allowed me to opted Australia for my higher education. The international exposure that I would receive by studying in Australia would help me to stand out in the crowd.

ABOUT MY CHOSEN CITY IN AUSTRALIA – DARWIN

The various reasons for choosing Darwin campus are as follow:-

- The city of Darwin, being small has its advantages' which is the most safest and peaceful place.
- The city does not visit winter; it's warm all year and with a relaxed, small town feel.
- The city of Darwin welcomes international students as part of Darwin's global talent hub.
- It has always attracted people from many cultures and there are now over 2,000 international students studying there.
- Darwin is a city full of wonderful opportunities for students to learn and gain valuable skills that are vital for a successful career.
- It has excellent job prospects and a multicultural community of students who are supported through student services programs.
- Darwin being ranked top 100 university in Australia for Asia's most innovative universities.
- The courses at Darwin allow students to both study skills for the degree and complement them with more general skills related to personal interests.

MY LIVING ARRANGEMENTS IN AUSTRALIA

One of my friend was a former student of Charles Darwin University and one of my cousins lives in Sydney. Since they are familiar with Australian culture and tradition and with the multicultural environment I will get guidance and support from them in the living arrangement. Eventually, I will look for the Nepalese community who already assisted Nepalese students by searching for accommodation and other guidance in the past. I already started looking for accommodation via the Nepalese community in Darwin, as it will be easy for us when we

travel to Australia. Also, I can search the accommodation near Charles Darwin University on websites like <https://www.realestate.com.au/rent/> , <https://flatmates.com.au/> , <http://gumtree.com.au> , and www.stayz.com . The cost of the accommodation in Darwin can vary in price depending on the suburb but is likely to cost between \$168 and \$450AUD per week which is much cheaper compared to other cities like Sydney, Brisbane, and Melbourne. During my stay at Darwin, I am sure I will enjoy the vibrant and peaceful nature of Darwin.

REASON FOR CHOOSING CHARLES DARWIN UNIVERSITY AS MY EDUCATION PROVIDER

I have chosen Charles Darwin University (CDU) through thoughtful consideration as it is one of the most renowned universities in the world. CDU is a top 100 university in the Asia Pacific; CDU was ranked 34th in the top 200 universities under 50 years of age in the world and ranked in the top 2% of universities in the world by Times Higher Education 2017. CDU was ranked in the top 301-350 universities in the world by Times Higher Education World University Ranking 2018. CDU ranked 91st in the Times Higher Education Asia Pacific University Ranking 2019. CDU has an excellent academic background with highly qualified professors. It holds students of multi-cultural backgrounds and religions, which will be very fruitful to share information and get to know about others' cultures. Unlike others, it is located in a very peaceful place with a safe environment for students to focus on studying and far away from city life. It has smaller class sizes which are the best part of teaching as it is giving more priority to the quality of education with affordable tuition fees. Also, it is recommended by my friend who was a former student of CDU. It is providing varieties of scholarships to international students like Vice-Chancellor's International High Achievers Scholarships and CDU Global merit scholarship 2022-2023, 2022 CDU International college pathway scholarship, etc. where CDU recently just came up with the decision to offer a 30% scholarship to the all international students for the course duration.

There are five campuses and five centers of CDU namely, Casuarina Campus, Alice Springs Campus, Katherine Campus, Palmerston Campus, Sydney Campus, CDU Darwin Waterfront Centre, Melbourne Centre, Perth Centre, Brisbane Centre, Jabiru Centre, and Katherine Centre. My course Master of Professional Accounting (Professional Practice) is offered at CDU Darwin Waterfront Centre.

I am looking forward to pursuing my postgraduate degree in Master of Professional Accounting (Professional Practice) at Charles Darwin University (CDU) at Waterfront Darwin. Master of Professional Accounting (Professional Practice) at CDU is a 2 years full-time program. I chose the MPA (Professional Practice) program because of my great interest and dream to develop my career and live a professional life in the world of business, industries, and administration. Nowadays the rapidly growing business world has been expanding the scope of business, account, administration, and management as well. Thus, to make myself fit for this ever-growing and competitive platform, I want to study this course. It will provide training in the technical aspects of the preparation

of accounting data, developing skills in the application of accounting information to solving problems and making decisions, and developing knowledge and skills in related professional disciplines.

I have compared CDU with other providers such as:

<u>UNIVERSITIES</u>	<u>PROGRAMS</u>	<u>TUTION FEES PER ANNUM IN AUD</u>
University of Technology Sydney	Master of Professional Accounting	42,770/-
University of South Australia	Master of Professional Accounting	40,300/-
University of Tasmania	Master of Professional Accounting Services	41,700/-
<u>University of Western Australia</u>	Master of Professional Accounting	42,300/-
<u>University of Adelaide</u>	Master of Professional Accounting	44,000/-
Charles Darwin University	Master of Professional Accounting (Professional Practice)	32,760/-

After making a comparison, I came to know that Charles Darwin University is providing the similar course at much reasonable fee, whereas other universities ask for much higher tuition fee. At CDU I am getting 30% CDU Global merit scholarship 2022-2023. Therefore my total course duration fees become AUD 45,864/- from AUD 65,520/- which is a big saving for me and my family.

ABOUT MY CHOSEN PROGRAM - MASTER IN PROFESSIONAL ACCOUNTING (PROFESSIONAL PRACTICE)

A number of reasons are there for me to choose to account as my ultimate career. Firstly, Finance/accounting was a major part of the course structure of my four years of Bachelor's Degree which has provided me with greater knowledge in the field of finance and accounts where I have studied different subjects related to finance and accounting such as financial accounting, financial management, international finance, taxation & applied accounting and investment & financial instruments. I also have real-time experience in the accounting field as I have been working as an assistant at Nabil Bank. My academic and work experience in this field made me realize that accounting, being a basic tool of every business, determines the performance of the business and its bottom lines. It is considered as only one degree which opens the door to many opportunities, be it a Partner in an accounting firm, a job at a private or government organization, or even become an entrepreneur.

I am applying for a Professional Accounting (Professional Practice) Major and applying for this major because it is relevant to my previous qualification of MBA. During my MBA course, I started working in Nabil Bank Ltd. as an Operation Assistant. Since I only had 1 Accounting subject in my MBA, I realized while working at a Bank that I had a minimal knowledge of Accounting which I required on a day-to-day basis at my work. Hence, having an Accounting Degree would be highly beneficial to my banking career.

Furthermore, along with the emergence of varied scales of enterprises, the scope of accounting and financing seems to be increasing more than ever. Accountancy is undeniably the bedrock of any successful business. For every corporation, what probes the potential investors in the first place is the performance of the business which is widely measured by the financial indicators. A thin line that distinguishes professional accountancy from other management courses in the development of professionalism remains unadorned on the side of other courses. To be specific, professional accounting is a comprehensive course devised to render pragmatic and technical powers in contemplation of financial decision making. The subject outline broadens the educational horizon of students with an additional course of the principal of accounting, economics, business law, and so on.

Besides, the majority of the people still have the habit of holding money rather than investing. Earning a degree in professional accounting will entail a degree of insight regarding the in-vogue practices in the contextual market where accountants endeavor. With this framework, I will be able to encourage more people to invest in local areas thereby promoting the economy of the nation as a whole. I am confident that MPA will lead me towards fulfilling my dreams and make my future prosperous and bright.

The Master of Professional Accounting (Professional Practice) program has 15 core subjects and students must complete 160 credit points taken at the postgraduate level at Charles Darwin University. The core subjects are Accounting Principles, Management Accounting, Corporate Accounting, Auditing, Accounting Theory, Accounting Information Systems, Business Economics, Aspects of Corporate Finance, Australian Tax Law, Corporate Law, Commercial Law, Business Statistics, and Professional Practice Experience Options. Professional Practice experience consists of real-life exposure to the workplace either in public or private under the supervision of a qualified mentor or supervisor. The course includes contemporary knowledge and skills required for professional practice as a public or chartered accountant. It will develop technical and conceptual skills required to become a competent accountant and will develop abilities to analyze, criticize and synthesize various accounting and related principles, methods, and techniques. The course is fully accredited and meets the membership requirements of the three accounting bodies in Australia- CPA Australia and the Chartered Accountants in Australia and New Zealand (CAANZ) together with the Institute of Public Accountants (IPA).

FUTURE GROWTH AND CAREER PLAN

After completing my master's degree, I would like to use the Post Study Work (PSW) facility provided by the Australian Government for international students to gain necessary work experience in their respective fields so that the student would return home not only with a recognized degree but also with the industrial skills on the demand with the current markets. Not only that, this facility helps the students to gain other skills like communication skills and interpersonal skills while working with diverse people around the globe. These skills collectively are very important in leading a team in any organization while I return to my country. So, I would like to take this opportunity and would like to work as an Accountant in one of the leading organizations. During PSW I will try to find job in Australian companies which includes the following:-

- PWC- <https://www.pwc.in/careers.html>
- KPMG- <https://home.kpmg/in/en/home/careers.html>
- EY- <https://careers.ey.com/>
- Findex- <https://www.findex.com.au/careers>
- BDO- <https://www.bdo.in/en-gb/careers>
- William Buck- <https://williambuck.com/nz/careers/>

I will target these job through various job portals like www.jobserve.com , www.spotjobs.com , www.alljobs.com.au , www.careerjet.com , www.careerone.com.au with a pay scale of AUD 30,000/- to 40,000/- per annum.

After my master's and PSW period, I will return to Nepal as international business and companies are expanding highly in Nepal, in undertaking this study area I will acquire advanced technical knowledge in such areas as financial statement analysis, management accounting, and control, and financial forensics and business intelligence. I will exercise my skills in critical thinking, reflection, analysis, and judgment to solve real-world problems in complex accounting and global business contexts. Working individually and in a group, I will become experienced in professionally and effectively communicating accounting and legal knowledge to provide advice to diverse audiences.

Once I will be back Nepal, I will be seeking a job in different companies and expect good packages after completion of a master's degree. I intend to apply for the potential employment profiles of an: -

- Credit Analyst
- Auditor
- Financial Analyst
- Investment Analyst/Consultant

- Business Analyst/Consultant
- Taxation Consultant
- Legal financial adviser etc.

I can work any of above job profile in a different organization are as following: -

COMMERCIAL BANK: -

- Nabil Bank - <https://www.nabilbank.com/index.php/career>
- NIC Asia Bank - <https://www.nicasiabank.com/current-vacancies>
- Global IME Bank - <https://globalimebank.com/career.html>

INSURANCE COMPANIES: -

- MetLife-American Life Insurance Company Limited - <https://jobs.metlife.com/search/>
- Asian Life Insurance Company Limited - <https://www.asianlife.com.np/>
- Surya Life Insurance Company Limited- <https://www.suryalife.com/>

AIRLINES

- Everest Air - <http://www.everestblowers.com/career.html>
- Fly Yeti - <https://www.yetiairlines.com/vacancy>
- Nepal Airlines - <https://nepalairlines.com.np/home/careers>

FMCG SECTOR

- Nestle - <https://www.nestle.com/jobs>
- Hindustan Unilever limited - <https://www.unilever.com/careers/experienced-hires/>
- Chaudhary Group <https://vacancy.chaudharygroup.com/>

PRIVATE COMPANIES

- Bhat-Bhateni Group - <https://www.jobsnepal.com/employer/bhatbhateni-super-market/5785>
- Golchha Organisation - <https://golchhagroup.com.np/career/>
- Golyan Group - <https://golyangroup.com/careers/>
- ICTC Group - <https://www.jobjee.com/employer/ICTC-Group-/1551>

As the international degree is highly recognized and highly remunerated in my country than a national degree, the only desire I have after completion of my course is to return to my native land with more qualified experience,

knowledge, and confidence. While researching the current job prospects in Nepal in my related field, I have found many job vacancies with the salary ranging from NPR 90,000 to NPR 200,000 depending on the experience and degree.

I have a strong desire to implement the knowledge, skills, and abilities to uplift the financial and accounting environment of Nepal by providing accounting, financial, and counseling services as an entrepreneur. I can fulfill my desire only if I can get an international degree from Australia which is highly valued in my country. With my degree and international work experience, I will be paid three times more than the salary I currently earn today. So, it is worth studying in Australia.

RETURN ON INVESTMENT

For example: let's just say that I return to Nepal in 2027 or 2028 after completing my degree and after using my PSW period. I have gained more than four and a half years' work experience in Nepal and I will end up gaining three years' work experience in Australia. My return to Nepal will be with a collective total of eight years of work experience which in the accounting industry is considered very well. This will allow me to apply to top companies operating in Nepal. For the positions that I am aiming at the current salary is pegged at NPR 600,000/- above per annum.

So, if I start my career in Nepal with NPR 600,000/- per annum, I would by simple calculation of taking an average of 10% hike in salary every year reach up to the level of NPR 10 Lakhs per annum approximately in 6 Years. So, if you were to calculate per year salary then in 6 years I end up earning a total of NPR 6,000,000/- approximately which fairly good as a return my family is making on my education.

MOTIVE TO RETURN BACK TO MY HOME COUNTRY NEPAL

Well, the basic reason for me to go to Australia is my education and once I complete my degree, I plan to use the 3 years of Post Study Work Rights that the Australian government is so graciously giving to the students. I view this opportunity as a golden period to gain international work experience as this will sum up as another highlight on my resume. Now, if I return with three years' work experience in the accounting field, I can only imagine how easy it would be for me to get myself into a reputed organization here in Nepal. So, for me, it is very important that I return home as quickly as I can so that I can start building my career in my home country.

Moreover, apart from my career opportunities, Nepal is my motherland; I am very much concerned and connected with my parents. I share a very close bond and relationship with them and their enormous support and high level of motivation have been the major factor in my life. They have always been there for me through thick or thin and play a major role in my life to be a motivated and career-oriented person who drives me towards better work, dedication, and interest in fulfilling all projects I undertake. Being the eldest daughter child, I have immense

responsibility towards my family and want to ensure that they are provided with all the luxury, security, and care in their later phase of life. I also have a responsibility towards my younger siblings.

I have my mother-in-law who is growing old with the passing of days. Being the sincere child of my family, my husband and I are her supporters and inheritors. After my father-in-law, my mother-in-law took care of all, and now it's our time to give her all the happiness which she deserves. She will need to be taken care of in her old age. So, to do this, I cannot be living away from them where it will take me days to reach them. I am also emotionally attached to the cultures and festivals of Nepal and never skipped one in my life. I will not be able to live away from my family for a long period. As far as a job is concerned, I am pretty sure that I will definitely get a good job position in a recognized organization when I return to my home country. So, in the end, I wish to declare that my stay in Australia is for a temporary purpose and I do not plan to stay there for long as getting a master's degree in accounting is only my objective for visiting Australia. After course completion, I will come back to my home country as I have my family in Nepal who is investing a huge amount in me, and in the future, I want to share my success with them. Being the eldest daughter and only daughter-in-law I am very aware of my responsibilities toward my family, and I believe that person is nothing without her family.

HOW WILL I GET JOBS IN REPUTED COMPANIES UPON MY RETURN TO MY HOME COUNTRY?

To get a good position in a reputed organization, I can avail the services of human resource consultants that are widely available. For a fraction of the service charge, these consultants float the resume across the top companies and fix interview appointments. Here below, please find a list of a few Human Resource Consultants:-

1. Alamal Overseas Pvt.Ltd <https://alamaloverseas.com/>
 - Phone – +977 014360015, +977 014366061
 - Email - info@alamaloverseas.com
2. Landmark HR Consultants <https://manpowersupplyfromnepal.com/about-us/>
 - Phone - 977-01-4390092 - +977-01-4390093
 - Email info@manpowersupplyfromnepal.com
3. Lucky HR Solutions <https://www.luckyhrsolution.com/>
 - Phone - +977-5520562, 5550634,
 - Email - info@luckyhrsolution.com

Apart from HR services, we also have some famous job hunting websites which include the following:-

1. Mero Job- <https://merojob.com/>
2. Ramro Job- <https://www.ramrojob.com/>
3. Kantipur Job- <https://kantipurjob.com/>
4. Jobs Nepal- <https://www.jobsnepal.com/>

I also have the option to apply for jobs within my industry by applying directly to companies that I have already mentioned above.

FUNDING ARRANGEMENT FOR MY HIGHER STUDIES IN AUSTRALIA

As far as my academics are concerned my parents are sponsoring me for my higher studies in Australia.

Sponsor	Annual Income
Mr.Hari Dhakal (Father)	NPR 25,60,200/- (Income from Salary)
Mrs. Chadani Dhakal (Mother)	NPR 360,000/- (Income from House Rent)
Mrs.Sakshi Devi Timsina (Mother-in-Law)	NPR 4,20,000/- (Income from Salary)
Total Annual Income	NPR 33,40,200/- (approx.) *AUD 37,113.33 @ 1AUD =90 NPR

Furthermore, my families have some assets in the form of movable and immovable assets of worth NPR 1, 4,520,000/- and 15,860,000/- (approx. AUD 3, 37,555/- @1AUD=90 NPR) which includes:

- Land of worth NPR 303,80,000/- (including from my parents and In- Laws)
- Deposit in Bank of worth NPR 9,267,080.25 /- Approx. AUD 105,188.20/-

The above-provided information regarding family assets and income is also verified by a Chartered Accountant (the equivalent of a CPA in Australia). I have attached the net worth certificate issued by a Chartered Accountant for your information. Financially I have no issues and I believe there is no point in struggling and building a life in a new country when one has a sound and strong platform to make the best use of it in the home country. I only

want to go to Australia for my education and after that, I will return to my home country and start my professional career in the Finance and Accountancy field as soon as possible.

DEPENDANT DETAILS

I have been married to my husband, Mr. Subash Timsina since 30th November 2020. He is a BBA graduate and is also working as an Assistant in NIC ASIA Bank from 2019. I am planning to travel to Australia along with my husband as my moral and physical support. Since I will be busy studying, my husband can help me keep up with our household chores. Since we are relatively young couples; I want to explore Australia along with my husband during the next few years of our studies/stay in Australia.

VISA OBLIGATIONS UNDER SUBCLASS 500

I am well aware of the visa conditions under subclass 500 and other set of rules and regulations set by Australian government. As an international student I will have to:

- Maintain the academic progress and the attendance record of 80%.
- I need to maintain 50% pass grade in each term
- Maintain health insurance (OSHC) throughout my study period in Australia.
- Notify the education provider/DIPB within 7 days if I change my address or contact details.
- Must enroll in a registered course.
- Not allowed to more than 20 hours per week.

I have required a level of qualification, English language ability, and financial ability to complete the course of study within the scheduled period. I pledge to you that I will comply with all the rules and regulations and respect Australian values. I declare that all the information I have provided is true and my own. I am aware of the consequences of providing any misleading information.

CONCLUSION

Finally, I declare that I will value Australian ethics and abide by rules and regulations as an international student and abide by all the conditions imposed on a student visa holder. My purpose to visit Australia is to get the best education available which will help me later get a good job in my home country.

I am an ambitious person and want to achieve the maximum in life so that I can become a successful person. I want to have a good status and position in society and all these things are possible if I get this chance to pursue my further studies in Australia. I would consider myself lucky if I am given an opportunity to pursue my further education in a peaceful and safe country like Australia. I am confident that education from Australia will provide invaluable experiences and an excellent opportunity to achieve my career goals.

Thank you for allowing me to express myself.
